Battery Watering Gun

Battery maintenance and care for your forklift battery has never been so easy!

Precise: Our front trigger battery watering gun safely and easily adds water to your industrial batteries. The Gun automatically shuts off at the correct fill level every time.

Ergonomically Friendly & Safe: No longer will your employee's have to bend awkwardly over the battery and look into each cell. Now they can insert the tip of the Gun and pull the trigger. This gives an accurate cell fill every time without back strain or the risk of an acid splash...Just insert it into the cell and pull the trigger.

Important Note: Not for use with battery watering holes less than 1" diameter.

Battery Watering Gun
70-1180
Shipping Weight 2 lbs.
