

# CSS METAL BALL SEAL

The CSS Metal Ball Seal are US Customs approved and are used by many government agencies, industrial manufacturers, forwarding agents and international cargo handlers.

## IDEAL METAL BALL TRUCK SEAL

The CSS Metal Ball Truck Seal (MBTS) is a fixed length metal strap seal that is easy to install and can be embossed with a company name and consecutive numbers. The seal is manufactured with a double wire locking mechanism encased within the ball to secure your shipment and provide increased tamper resistance. The double locking barbs which offer audible evidence of proper engagement and locking.

## CUSTOMIZABLE OPTIONS

The fixed-length metal ball truck seal is available in five colors for added seal life and easy identification. They can be embossed with up to 15 characters and/or a 7 digit number. The seals are made out of tin plate steel #95 and measure a total length of 8.75" making them strong and able to fit through extremely thin slots. Custom length sizes are available.

## LOCKING INSTRUCTIONS
