

The UniPad C by **Universeal** is a high quality, cost efficient **padlock seal**, with a **clear acrylic core**, over moulded by a coloured polypropylene shell.

A one-piece construction, without assembly, it can withstand extended exposure to outdoor elements, with great cost-efficiency.

Seal locking integrity can be monitored at all times, thanks to the **see-through body**.

Laser printed numbers or barcodes, are encapsulated inside the clear acrylic material, making alteration or **tampering impossible**.

Main applications: utility meters, airline scales, hatches, tote boxes, cable signalization, and more.

## Main features

- \* Clear body for easy detection of tampering (can also come in plain colour)
- ★ Two colours, two materials, one-piece; coloured shell over moulded
- ★ Galvanized wire hasp, stainless hasp on request
- \* Multiple hasp shapes; hasp can be solid for high-resistance, or scored for easy removal
- ★ Many colors available
- ★ Barcode available
